PATENT LICENSE AGREEMENT AGR-0031

SYNTHETIC DOCUMENT. GoNoGo generated this agreement for evaluation. It is not a real NASA license.

This Patent License Agreement ("Agreement") is entered into on June 5, 2019 by the National Aeronautics and Space Administration ("NASA"), an agency of the United States, and Northwind Thermal Systems Limited ("Licensee"), having its principal place of business at 55 Bay Street, Toronto, ON M5J 2N8.

Article 1. Grant. Subject to the terms of this Agreement, NASA grants Licensee a partially exclusive license under the Licensed Patents to make, use, and sell Licensed Products within the Field of Use and the Licensed Territory. The Licensed Patents are NASA Case No. LAR-17981-1; NASA Case No. LAR-18762-1; NASA Case No. LAR-18762-P.

Article 2. Field of Use. The Field of Use is limited to mobile and/or transportable, as opposed to stationary (where stationary means permanently fixed and not capable of being moved), power/energy sources for United States Department of Defense (specifically the Army, Navy, Air Force, Marine Corps, and Coast Guard, as well as any future created Space Corps) applications, including but not limited to powering mobile and/or transportable high energy weaponry, including the weaponry's mode of transport (including but not limited to tanks, surface vessels, trucks, aircraft, Unmanned Underwater Vehicles (UUVs), Autonomous Underwater Vehicles (AUVs), and drones), high energy weapon platforms, and portable power stations for use at Forward Operating Bases (where Forward Operating Bases means airfields used to support tactical operations without establishing full support facilities).

Article 3. Licensed Territory. The Licensed Territory is United States (ISO 3166 code US).

Article 4. Term. This Agreement takes effect on June 10, 2019 and remains in force until June 7, 2029, unless terminated earlier under its terms.

Article 5. Royalties. Licensee shall pay NASA a running royalty of 5.1 percent of Net Sales and a minimum annual royalty of 50,000 U.S. dollars. This Article is confidential.

Article 6. Sublicensing. Licensee may grant sublicenses within the Field of Use with the prior written consent of NASA.

Article 7. Export Control. Licensee shall comply with all United States export control laws and regulations that apply to the Licensed Products and related technical data.

Article 8. Signatures. Signed for NASA by the Licensing Officer, NASA Langley Research Center, and for Licensee by its authorized officer.
