PATENT LICENSE AGREEMENT AGR-0034

SYNTHETIC DOCUMENT. GoNoGo generated this agreement for evaluation. It is not a real NASA license.

This Patent License Agreement ("Agreement") is entered into on April 9, 2020 by the National Aeronautics and Space Administration ("NASA"), an agency of the United States, and Lumen Arc Photonics AB ("Licensee"), having its principal place of business at Storgatan 31, 722 12 Vasteras.

Article 1. Grant. Subject to the terms of this Agreement, NASA grants Licensee a partially exclusive license under the Licensed Patents to make, use, and sell Licensed Products within the Field of Use and the Licensed Territory. The Licensed Patents are U.S. Patent No. 7,086,593 (NASA Case No. LAR-16908-1); U.S. Patent No. 7,159,774 (NASA Case No. LAR-17280-1); U.S. Patent No. 8,430,327 (NASA Case No. LAR-17294-1).

Article 2. Field of Use. The Field of Use is limited to package monitoring quality sensors to detect changes in product quality and authenticity, such as pharmaceutical, food, beverage, tobacco, and cosmetics products and/or similar field(s) of use thereto.

Article 3. Licensed Territory. The Licensed Territory is United States (ISO 3166 code US).

Article 4. Term. This Agreement takes effect on April 14, 2020 and remains in force until April 12, 2030, unless terminated earlier under its terms.

Article 5. Royalties. Licensee shall pay NASA a running royalty of 2.2 percent of Net Sales and a minimum annual royalty of 5,000 U.S. dollars. This Article is confidential.

Article 6. Sublicensing. Licensee may not grant sublicenses under this Agreement.

Article 7. Export Control. Licensee shall comply with all United States export control laws and regulations that apply to the Licensed Products and related technical data.

Article 8. Signatures. Signed for NASA by the Licensing Officer, NASA Langley Research Center, and for Licensee by its authorized officer.
