PATENT LICENSE AGREEMENT AGR-0051

SYNTHETIC DOCUMENT. GoNoGo generated this agreement for evaluation. It is not a real NASA license.

This Patent License Agreement ("Agreement") is entered into on July 18, 2023 by the National Aeronautics and Space Administration ("NASA"), an agency of the United States, and Tessellate Composites Corporation ("Licensee"), having its principal place of business at 1200 Mill Road, Akron, OH 44308.

Article 1. Grant. Subject to the terms of this Agreement, NASA grants Licensee a co-exclusive license under the Licensed Patents to make, use, and sell Licensed Products within the Field of Use and the Licensed Territory. The Licensed Patents are U.S. Patent No. 7,977,411 (NASA Case No. KSC-12848-DIV).

Article 2. Field of Use. The Field of Use is limited to polymers and composites.

Article 3. Licensed Territory. The Licensed Territory is United States (ISO 3166 code US).

Article 4. Term. This Agreement takes effect on July 23, 2023 and remains in force until July 20, 2033, unless terminated earlier under its terms.

Article 5. Royalties. Licensee shall pay NASA a running royalty of 3.0 percent of Net Sales and a minimum annual royalty of 10,000 U.S. dollars. This Article is confidential.

Article 6. Sublicensing. Licensee may not grant sublicenses under this Agreement.

Article 7. Co-Exclusive Licensees. NASA may grant co-exclusive licenses in the Field of Use and Licensed Territory to no more than 3 licensees in total, including Licensee.

Article 8. Export Control. Licensee shall comply with all United States export control laws and regulations that apply to the Licensed Products and related technical data.

Article 9. Signatures. Signed for NASA by the Licensing Officer, NASA Kennedy Space Center, and for Licensee by its authorized officer.
