PATENT LICENSE AGREEMENT AGR-0061

SYNTHETIC DOCUMENT. GoNoGo generated this agreement for evaluation. It is not a real NASA license.

This Patent License Agreement ("Agreement") is entered into on March 10, 2026 by the National Aeronautics and Space Administration ("NASA"), an agency of the United States, and Gulfstream Cryogenics LLC ("Licensee"), having its principal place of business at 19 Launch Complex Road, Titusville, FL 32780.

Article 1. Grant. Subject to the terms of this Agreement, NASA grants Licensee an exclusive license under the Licensed Patents to make, use, and sell Licensed Products within the Field of Use and the Licensed Territory. The Licensed Patents are U.S. Patent No. 9,117,948 (NASA Case No. not stated); U.S. Patent No. 9,418,844 (NASA Case No. not stated).

Article 2. Field of Use. The Field of Use is limited to batteries.

Article 3. Licensed Territory. The Licensed Territory is United States (ISO 3166 code US).

Article 4. Term. This Agreement takes effect on March 15, 2026 and remains in force until March 12, 2036, unless terminated earlier under its terms.

Article 5. Royalties. Licensee shall pay NASA a running royalty of 3.1 percent of Net Sales and a minimum annual royalty of 50,000 U.S. dollars. This Article is confidential.

Article 6. Sublicensing. Licensee may grant sublicenses within the Field of Use with the prior written consent of NASA.

Article 7. Export Control. Licensee shall comply with all United States export control laws and regulations that apply to the Licensed Products and related technical data.

Article 8. Signatures. Signed for NASA by the Licensing Officer, NASA Glenn Research Center, and for Licensee by its authorized officer.
